Comments entered:

As a high schooler and young person, climate change is especially important to me as it will impact myself, my children, and my grandchildren for years to come. Implementing RGGI will help PA reduce its greenhouse gas emissions 80% by 2050, and ensure that future generations of Pennsylvanians will be able to enjoy the lush, green Pennsylvania that we all know and love. For this reason, I fully support the implementation of RGGI.
