Climate change is an extraordinary, nearly unfathomable, threat.
We have to leave as much as we can of this fine earth for those who follow.

As those who have studied this situation know all too well, we are in a climate emergency - our response is 50 years too late. We simply have to do what we can

RGGI is not nearly enough. BUT IT IS AN ESSENTIAL BEGINNING.

Kudos to the leadership in the Governor's office and in DCNR for exhibiting the necessary awareness of science, as well as the necessary ethical standards and moral compass to pursue RGGI.
