Since this program was formed in 2009, in 10 states in the NE, the cost of electricity has increased by 50 to 64%. For people on fixed incomes and countless people who have lost their jobs as a result of the lockdown and businesses closing, the high increase cannot be afforded. Please do not place this terrible burden on senior citizens and others struggling to make ends meet.

Please do NOT join this program!!
Thank you for your consideration,
