Comments entered:

I am writing to voice my support of this regulation that would begin to limit PA's CO2 emissions and establish us as a willing and eager partner in the regional battle against climate change. I believe that this is not a silver bullet, this is not a panacea, it is only one step in the right direction. However, I do support it and urge the DEP to adopt this regulation so we can work collaboratively with other states to begin combatting climate change.

No attachments were included as part of this comment.
