Subject: "CO<sub>2</sub> Budget Trading Program"

Gentlemen:

This letter is in reference to Governor Tom Wolf's proposal to have Pennsylvania join the Regional Greenhouse Gas Initiative (RGGI). I am totally in agreement with Gov. Tom Wolf's proposal for RGGI.

I live in Indiana County about 3 miles away from the Homer City Generating Station (coal powered). The air quality is terrible here with filthy coal ash. When there is a cloud cover, my eyes burn and water so much that I can't see well when driving.

Please clean up this dirty coal plant that affects people's health and the environment.

Sincerely,

Marilyn Krushinski
