Re: Proposed Rulemaking: CO2 Budget Trading Program (#7-559)

Submitted via email to: RegComments@pa.gov

Dear Environmental Quality Board:

On behalf of the 1,558 members and online activists of the Natural Resources Defense Council whose signatures I have attached, I am pleased to submit the following comment concerning the proposed rulemaking referenced above.

Dear Governor Wolf and the Environmental Quality Board,

Thank you for the opportunity to comment on the Department of Environmental Protection's proposed carbon dioxide budget trading program. I am a Pennsylvanian and I urge you to adopt the program so that Pennsylvania can cut carbon pollution from its power plants and join the Regional Greenhouse Gas Initiative.

Since the Regional Greenhouse Gas Initiative was launched, it has helped fight the climate crisis while saving consumers hundreds of millions of dollars on energy bills and creating thousands of new jobs in the booming clean energy sector.

Critically, the Regional Greenhouse Gas Initiative has also improved public health in participating states by cutting harmful air pollutants which aggravates problems like lung and heart disease and may weaken a person's ability to survive COVID-19. I call on you to adopt the DEP's proposed carbon dioxide Budget Trading Program. And I urge you to ensure that the program maximizes emissions cuts and investments in communities overburdened by pollution and communities economically dependent on fossil fuels.

Sincerely,
Josue

JOSUE AGUILAR
