Comments entered:

I am totally against this initiative. I believe that this initiative should be halted or cancelled. This initiative will only end up costing taxpayers more in the long run for the little gain it accomplishes.

The power plants will not shut down, only increase their rates. Lord have mercy on our souls if they would shut down! One day in the cold and dark in the middle of winter and see how people feel. I always wanted to be a "Big Spender" I just did not think it would be on my electric bill! Wind, Solar Etc. can not meet the demand for todays energy needs yet. Notice I said yet. Thank you for your time and consideration.
