My husband works for Keystone Generating Station. If the RGGI bill is passed he will lose his job along with all of his coworkers. You are wanting to close the plant and out source the jobs to West Virginia, Ohio, etc. How do you expect them to provide for their families. Are you trying to make everyone move out of Pennsylvania? If that is what your goal is, pass this bill. This state will be a ghost state again like it was when most of the coal mines were closed town.
