Gentlemen and ladies,

I am writing to oppose the rule making that the Governor has proposed to join RGGI and The CO2 Budget Trading Program. The effects that joining RGGI and the whole scope of CO2 budget program will have an effect to all the residence of Pennsylvania.

Programs have never worked to level the playing field dealing with health, residence of the state or the economy. Programs are artificial objects that people place in the road to make it look like they are doing something to help people and in all honesty it becomes a supportive program that benefits a few and not the majority of the people.

This country is a republic yes but the constitution and the Supreme Court have been in place to protect the rights of the lone individual. Myself as that lone individual is opposing the RGGI signing and Limiting CO2 in a trading system.

To make the system fair you need to have alternatives for people to choose the direction without interference by the government to choose. The government is to represent the people and not the government to dictate to the people.

So that being said you are infringing on my right and I strongly oppose the Governor's proposal. You need to represent the lone individual ... Me and say not to this Bull Shit that just keeps making the playing field uneven.

Respectfully

Bruce A. Krug
