At a time when our state is in an economic crisis with record unemployment, no one should choose to harm wages and job security, threaten the survival of businesses and manufacturers, and further jeopardize regional economies that are already struggling to survive. The Wolf Administration is manipulating the regulatory process to eliminate any meaningful opportunity for people in impacted communities to have a voice, as required by law.

Please reject the RGGI tax regulation and protect the jobs of thousands of Pennsylvanians struggling to make ends meet during this terribly difficult pandemic recession. The Sun only shines 179 days per year in Pennsylvania. If this passes the sun will never shine again for thousands if not millions of Pennsylvanians.
