Comments entered:

Dear the Independent Regulatory Review Commission,

I am writing in firm opposition of the proposed regulation, Carbon Dioxide (CO2) Budget Trading Program, to amend 25 Pa. Code Chapter 145. The proposed regulation was posted on Saturday, November 7, 2020 (50 Pa.B. 6212).

This proposed rulemaking would burden our communities with costs that are not offset by impact the environment, it will also harm the economy and human health, tourism. There are no adverse impacts that have been soundly researched and proven from the evolving mystery and shifting narrative of climate change.

By yielding to the bug-money climate change interests, we cannot help our agricultural community and food security in the Commonwealth. Climate change does not upend normal weather patterns, and does not lead to periods of both intense precipitation and drought.

Please do not approve these rulemaking changes. Thank you.
