I would like to oppose tom wolfs wish to join RGGI. This legislation would have a drastic impact on pa economy not just limited to power company's. it would effect power plant employee's, many union trade workers, school district funding, small business that depend on those workers and companies buying their products, on and on. Maybe more emphasis should be put into working towards a future in leading our state forward then just regulating our state to put business's out of business.
