Comments entered:

I am NOT in favor of PA joining the RGGI. In my opinion, this would only cause an increase in costs to the residents of PA. It would also possibly cause the closing of power generation plants due to increased costs. These costs would be deposited in that "black hole" called the state budget and might never be seen again. Further, power generation would simply move to one or more of our neighboring states which would cause a further loss of revenue for us.
