

12-03-20

DEP EQB,

I am responding to Gov. Tom Wolf's proposal to have Pennsylvania join the RGGI. I am opposed to this proposal and any similar CO<sub>2</sub> Budget Trading Program. I believe if passed, this Program will do little if anything to reduce CO<sub>2</sub> levels. I feel this program will actually exasperate any perceived problems regarding CO<sub>2</sub> levels. This proposal is simply a tax that all Pennsylvania residents will be required to pay through higher electric prices with no environmental merit.

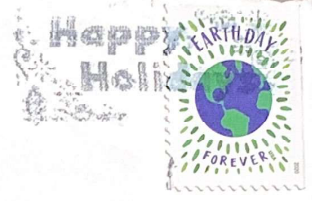

Thank you,

*Edward Davis*
