Comments entered:

Good day,
While I agree there are some traceable and known affects resulting from human existence and activity upon the earth, I do not see how your projections are reasonable. Any monies necessary for your continued research and proposed solutions should NOT come from the hardworking taxpayers of this Commonwealth. If the PA government were more responsible with the handling of the taxpayers' money, there would be enough to go around for all legitimate issues. As it is, you should be rethinking and reallocating what taxes already are coming in. The American people and citizens of PA cannot afford to pay for the government's mishandling of the people's hard earned money.
Thank you.
