This will increase tax expenses for my local electrical provider which will in turn be passed on to my family and friends. We pay too much in taxes already, according to my most recent paystub over \$18,000 dollars already has been stolen from my paycheck by the government in taxes this year alone. I'm just a regular guy working a regular labor job that doesn't require a college degree, and getting bent over further by you elected officials every time you decide to pass another tax bill to look like you are doing something to supposedly save the planet or a smelt or horse fly or whatever the excuse is this time. I pay absolutely no child support or allamony, so all \$18,000 was pure tax money. Bills like this are just a supposedly legal way for you to take money from us and move it to your personal account after a few money laundering stops so most people don't realize who got the tax money. Vote to end this bill immediately please, I can't afford to pay any more in taxes.
