This ivy league elitist has already done enough damage to this commonwealth. there are small businesses that are shut down because of his leadership or should I say lack of that will never come back. Under President Trump we are becoming energy independent from foreign countries and this governor wants to put a big hurt on people to pay higher energy costs. I say a big!!!!!!! No!!!!!!! toRGGI. And are green house gases are lower than China and most of the civilized world! We need a leader that listens to reason not this rich ivy league elitist!
