Comments entered:

The year 2020 has seen many Pennsylvanian's finances decimated. While we are all expected to continue paying state, property, sales, and other assorted taxes, so that politicians and public sector employees can continue to be paid. We are struggling. Now you propose yet another tax that will be passed on to working citizens. We are barely making ends meet now and you wish to drive up energy costs. Where will this end? I've lived long enough to experience every climate crisis from the mini ice age to global warming and now just the generic "change." Enough with this nonsense! Stop strangling the working class!
