Danville, PA 17821 US

Comments entered:

I am a retired engineer and my college taught to make decisions based on facts, not opinions. There is no doubt that global warming exists but if it is caused by humans is an opinion. When all the previous actions have not reduced the warming there is no reason to add another. Nature has had several global warming's after ice ages before we humans even existed. It appears likely that this one is primarily due to nature not humans.

No attachments were included as part of this comment.

Please contact me if you have any questions.

Sincerely,
Jessica Shirley
