Comments entered:

I think this proposal is bad for Pennsylvania.  
Please take into consideration the hardworking residents whose jobs will be impacted by this proposal. Having already been impacted by closures and slowdowns prompted by the COVID epidemic, all Pennsylvania residents will experience higher energy costs and taxes. This cycle will prompt more people and businesses to move out of Pennsylvania. The coal and gas are here, and I think we should make use of them. Conservation of natural resources calls for the wise use of the resources while also taking steps to protect the environment and citizens of our commonwealth.  
Thank you.
