This should put our Covid 19 crippled businesses under for good! Pristine air isn't much good if you can't afford heat, light, food or have a job to provide basic necessities. The property values will plummet as more people migrate to a state they can afford to live in. I have never considered moving away before 2020. It's definitely in my thoughts now with this and the other Big Brother handed actions imposed this year. I vote "NO" not that my vote will matter or be counted.
