I believe that the governor should step back and take in consideration of all the families this impacts. It goes so much further than just those employed by those power plants. But when push comes to shove with this governor we know he doesn't take the hard working, honest working people of this Commonwealth's input. He has an agenda and that's all he cares about. As he shows in the pandemic. It's pretty easy to shut business's down when it doesn't effect your income. To me that will be this governors Legacy.  
Thank you.
