To Whom It May Concern:

Please stop the insanity and don't permit the Wolf administration's nefarious objectives to further harm the country's quest for energy independence or knock down Pennsylvania's ability to compete in the energy arena.

I think we've all seen this administration's obvious desire to promote marijuana legalization as the highest priority while crippling business with NO scientific reason for doing so over the past nine months.

To be healthy, Pennsylvania needs to compete for industry and jobs in the energy market and NOT let this administration purposely kill our economy by blindly following other self-destructive and imploding states such as NY and CA.

PLEASE wake up.

Respectfully,
Michael Chopp
