Comments entered:

I am against any type of carbon tax on utilities. I don't believe we have any control over mother nature. I do believe in climatic change, but do not believe greenhouse government policy will have any if very little impact on climatic change.

Thank you,

Mike and Barbara Morgan p.s. In the 70's the environmentalist said water would rise 13 feet , then they said in the 80's it would be 8 feet now were down to 1.7 feet. What next? I live thru all this garbage!
