Dear Environmental Quality Board,

The Pennsylvania Department of Environmental Protection (DEP) and the Environmental Quality Board (EQB) should adopt the proposed CO2 Budget Trading Program. This which would enable us to work together with the Regional Greenhouse Gas Initiative (RGGI) states to cut our carbon pollution without delay.

The hardships caused by a warming planet are becoming worse and more obvious.

We need a cap on carbon emissions.

We need to invest in projects that will help fight climate change, promote clean energy and energy efficiency, and otherwise reduce air pollution. This will help our economy. Global warming hurts us, including economically.

We need to protect our environment, for ourselves and the world, now and in the future.

Sincerely,
