I am a recently retired citizen of Forest Hills PA. I am writing to express my support for Pennsylvania joining the Regional Greenhouse Gas Initiative. Climate change is the greatest threat facing mankind. Unless we reduce greenhouse gas emissions to zero in the next decades the generations that follow us will face a significantly poorer and unstable future.

I believe "Blessings of Liberty" in the Constitution's preamble ("secure the Blessings of Liberty to ourselves and our Posterity") includes the obligation to leave a healthy, livable environment to future generations.
