Comments entered:

Hello I am a concerned citizen and member of the Pittsburgh chapter of citizen climate lobby. I wish to express the importance of joining Regional greenhouse gas initiative. It will send a clear message to any polluters that there are consequences to flouting regulations and standards.

Coal power plants must be aware off the incentive to keep cleaning the emissions and scrubbing the towers. They must know the benefits to the carbon tax or the cap and trade systems. Citizen climate lobby does support the cap and trade system for carbon emission.

The Clean Air fund does need the influx of revenue. I have a longer letter to send but I waited to see if this email is received first , since I am a first time mailer.

Thank you
