Comments entered:

I am a Pennsylvania citizen with no agenda other than trying to decrease emissions that cause the protective ozone layer to dissipate. Green house gases are exacerbated by the businesses and activities of humans. We must reduce green house gases to protect our planet and the people living on the planet.

My husband and I have already signed up with Green Mountain Energy. All of the resources for our electricity are from renewable energy sources. It is a little more expensive each month, \$5 - \$8 per month, but I feel it is important to make this small sacrifice to improve air quality for everyone.

Suzanne Scheuer Leone Erie, PA.
