As a citizen of this state, I OPPOSE Governor Wolf's proposal to join the Regional Greenhouse Gas Initiative. This will further create job loss, which we've had ENOUGH of Governor Wolfs impact in that department. Now is NOT the time for more regulation that would negatively impact the economy. Natural gas is the best option for clean energy and that is what our state is thriving off of. Also, we are in an emergency state and because of that this shouldn't even be considered since public hearings are not allowed. Until the state is opened back up, this shouldn't even be allowed to be considered. Period.
