Thank you for the proposed changes, I believe they will truly help families provide better child care. One more thing that I would love to see considered is changing the requirement that a person must have a paystub/employment prior to getting child care. As a social worker working with homeless families it sure would be helpful to offer a 2-4 week period that families could be looking for employment, if at that point employment was not obtained then child care would end. It would also be very helpful for child care to be available for parents who are in partial programs for addiction recovery or mental health treatment.

Thank you for all that you are doing to help provide safe affordable care for children!
