Subject: Dispensary Pharmacist PA MMJ

CAUTION: **EXTERNAL SENDER** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Regarding Dispensary Pharmacist:

I have a medical condition for which medical cannabis has been part of an essential treatment plan and treatment coordination between my medical providers and the dispensary pharmacist. Their knowledge and input **INVALUABLE** to the success of medical cannabis in PA.

If PA is going to continue to provide medical cannabis to consumers, having a pharmacist on site is essential. They are uniquely qualified to provide input and expertise to PA doctors and other clinical providers. **It would be medically negligent to eliminate or reduce their presence in the dispensaries.**

Thank you for your consideration.

Sincerely,
Judith Knoop, LCSW
