My name is Mitchell and I'm a patient under the act and am certified for nerve damage. I also have autism thought not certified for I am also becoming a lawyer. I would like to suggest a new rule or regulation under the act. As the act give private suit amd right to employer discrimination and mandate that the employers not fire or take adverse action against the employee on the base of medical marijuana use. I belive the MMA should include regulations for all landlords in the commonwealth including housing which likes to try to evict people even under the act for legal use. I think the dept should promulgate a section in section 2103. would give tenants immense protection from illegal or wrongful evictions as judges are still very hesitant to enforce the act. We give employees rights why not tenants. As under the act the supposed safest place to use in in our own dwellings so why would we not protect tenants under the act and put actions in place that would not only protect all residents of the commonwealth but would also create laws that could combat illegal discrimination under the act its self. I belive in less regulations but believe also we shouldn't allow illegal eviction as legal.

Sincerley,
Mitchell
