as an oncologist i have a few concerns

- 1. we need edibles as cancer patients can't smoke or vape well**
- 2. for cancer patients- it is very expensive- the card is expensive, and the marijuana is also.**
- 3. as a physician, i cannot enter the stores and therefore i cannot help them in picking what is safe, nor can i speak to the people in the stores.**
- 4. there needs to be more involvement of the physicans**
