Subject: [External] Medical Marijuana in PA Bulletin

I would like to add comments regarding the information with medical marijuana. I do oppose this whole entire regulation and bulletin. I'm adding these comments because I know this is going farther than just medical marijuana. The state wants to pursue legal marijuana for all citizens.

Where in these regulations are protections for children? Especially for young children who do not have a use for marijuana. What about schools as well? What are you doing for the younger generation? So is this ok for a 5yrs old child to be around marijuana more than what some have already had to be? What about marijuana smoke? Is that healthy for the lungs? All the anti-cigarette ads say no to smoking tobacco. So what is the difference?

I see this as only caring about the present. This will have an impact in the future and it will not be a good thing.

Thank you for allowing my comments.
