RE: Regulation #10-219: Medical Marijuana

Dear Director Collins:

I would like to submit comments regarding the Department of Health's proposed permanent medical marijuana regulations. Please see my comments below.

Will the Department consider setting a regulatory limit on the concentration of THC?

Ideally this would be to less than 10% as there is no good research on concentrations greater than this for any medical condition and there is significant literature on the negative effects of high potency THC.

Sincerely,

A handwritten signature in black ink that reads "Marina Goldman MD". The signature is written in a cursive style with a large, stylized initial "M".
