Hi,
Another concern upon reviewing the physicians section. It states that we need to provide a copy of the certificate to patients and keep it on file. First what does that mean? Do I have to print it and mail it to them? The site doesn't allow it to be downloaded to a patient medical record - both of those requirements would place a large and unnecessary burden on physicians. Both physicians and doctors can access patient certificates on the DOH web portal so I propose that that language be taken out.

Respectfully,

MaryFrances Koester, MD
