Regulation No. 7-555 (#3311)  
Environmental Quality Board  
Radiation Safety Requirements for Non-  
Healing Arts Radiation Generating Devices

On July 14, 2021, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (Board). This rulemaking amends 25 Pa. Code Chapters 225 and 228, deletes 25 Pa. Code Chapter 227 and adopts 25 Pa. Code Chapter 227a. The proposed regulation was published in the August 14, 2021 *Pennsylvania Bulletin* with a public comment period ending on September 13, 2021. The final-form regulation was submitted to the Commission on March 21, 2023.

This final-form regulation amends radiation safety and technical requirements for industrial radiographic operations and non-healing arts radiation-producing devices. The regulation also updates standards to provide for technological advances in radiation technology.

We have determined this regulation is consistent with the statutory authority of the Board (35 P.S. §§ 7110.301(c) and 7110.302 and 71 P.S. § 510-20) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

**BY ORDER OF THE COMMISSION:**

This regulation is approved.

  
George D. Bedwick, Chairman
