Dear Ms. Gutierrez:

I write as a 92 year old stroke survivor at the Foulkeways Nursing Facility opposed to new licensure Regulations. I now receive excellent care. The planned regulations will only subtract from the nursing care I receive and replace it with my nurse sitting behind a computer and doing necessary reporting that keeps her from giving necessary attention to my needs and the need of others.

I fear for the loss of valuable nursing care if the proposed regulations are adopted.

Please reconsider,

Very Sincerely,

Roger Buchanan
