Independent Regulatory
Review Commission

I would deeply oppose any requirement where the nurses need to spend more time at documentation.

Sincerely,

Current resident

Jack Brillhart

About six years ago I made the choice to come here as a private pay facility. I like to have the choice of residing in a private pay facility without the extra burden placed by CMS.

I oppose the proposal to place Dallastown Nursing Center under CMS guidelines. I don't believe that nurses should spending more time documenting as it takes away from time with the residents.

If it ain't broke, don't fix it.

Sincerely,

Former Representative and current resident

Carville Foster

Documentation should always take a back seat to spending time with the patients, this regulation imposed by CMS on Dallastown Nursing Center would negatively impact my quality of life here.

Sincerely,

Lois Stauffer

Current resident
