I'm so happy legislation is changing in regard to staffing and care in nursing homes in PA.

All nursing homes need more staffing, with a decent pay scale. The residents certainly pay through the nose to be housed in a nursing home, and do not have their needs addressed in a timely manner, if at all!

I'm very happy to see new infection control measures will be put into place. However, Covid positive patients should have never, ever been admitted into nursing homes! Governor Wolf and Dr. Levin, and the entire Department of Health should be ashamed! Wolf/Levin stood in front of all of us during the deadly pandemic telling us we can't visit our loved ones in nursing homes. We don't want to take Covid 19 to grandma and grandpa bc they are the age that will not survive the virus. Then they turn around and admit the deadly virus right into their homes.....Nursing Homes!

Please make every effort to fully staff nursing homes and please increase wages for the aides, LPNs and RNs who dedicate their lives to take care of the elderly and infirm.
