My mother and sister both live in senior care homes, so I really care what happens there. My sister contracted COVID from an unvaccinated staff member and was hospitalized for a while. Mom is in independent living, is sharp enough to stay away from people, and, so far, has not contracted it.

I would like anyone working in any senior residential facility to be required to be vaccinated against flu, COVID, and any other contagious disease for which we have a vaccine. Period. No exceptions.
