Re: Registration of Naturopathic Doctors
IRRC #: 3324

To whom it may concern:

I am writing to ask for your support of the bill to regulate naturopathic doctors in PA. These doctors have worked long & hard to learn how to help patients overcome health challenges & develop and maintain a healthy immune system and a lifestyle that supports longevity.

I have personally found relief from Hypothyroidism, Hashimoto's, and most recently Epstein Barr. While medical doctors provide care for immediate issues by addressing symptoms, naturopathic doctors direct their efforts to identify the underlying causes of the symptoms and work with individuals to bring their bodies back into balance.

This bill supports the individual's right to choose their healthcare path while being assured the providers are well educated & trained!

Sincerely,
