Dear Commission:

IRRC # 3324
Agency # 16A

I wholeheartedly support registration of Naturopathic Doctors in Pennsylvania.

I am a 75 year old female.

During those 75 years I have had polio, have obtained several degrees, raised a family and volunteered my efforts to several groups.

During those years I had the stress most people have going through the stages of one's life. And during those times of pain and stress, I have been fortunate to benefit from the best of Traditional Medicine AND those of Alternative Medicine.

Naturopathy Doctors have often saved me from illness .

I'm sure there will be more extreme stories shared. I base my opinion on this issue looking at the numbers of people who have benefited from all the Naturopathic Doctors.

To do anything to hamper this profession would be ignoring centuries of knowledge.

And we have seen where that narrow minded thing leads.

Sincerely,
Jeannette Chamberlin
