Dear Commission:

IRRC # 3324
Agency # 16A
ID# 4953

I wholeheartedly support registration of Naturopathic Doctors in Pennsylvania. Registration of Naturopathic Doctors fortifies distinction of their national standards for education and training from federally accredited naturopathic medical colleges by the Council on Naturopathic Medical Education (CNME). Registration further assures Pennsylvania residents that their Naturopathic Doctor's title, with the N.D. designation, has the competencies of graduate naturopathic medical education and training in order to practice

Since seeing a Naturopathic Doctor I feel alot better. I used to feel sick and exhausted everyday, but I actually feel better. I like having a doctor to teach me how to use supplements and other natural holistic remedies to treat conditions I once used harmful medications for. I used to be overweight and for the past 2 years I'm the correct weight. I used to have painful cystic acne that isn't as bad as before. As long as I'm following the remedies given it's crystal clear. I've been told I look 10 years younger. My metabolism works much better than before and my body processes things better. I can't imagine going to back to a regular doctot for certain things because the things I know now have changed my body for the better.

Sincerely,

Amanda Hall
