I support registration of Naturopathic doctors. My wife has recently been treated for cancer and her medical oncologist had recommended the services of a Naturopathic doctor to help manage side effects from chemotherapy. That Naturopathic doctor provided very personalized, valuable coaching, dietary and supplement recommendations which were very helpful and effective in reducing side effects from chemotherapy as well as offering evidence based treatments to address the cancer itself. It will be of benefit to many many cancer patients to have access to Naturopathic doctors.

Thank you for your consideration,
Bruce Kautsky
