Dear Commission:

IRRC # 3324
 Agency # 16A
 ID# 4953

I wholeheartedly support registration of Naturopathic Doctors in Pennsylvania. Registration of Naturopathic Doctors fortifies distinction of their national standards for education and training from federally accredited naturopathic medical colleges by the Council on Naturopathic Medical Education (CNME). Registration further assures Pennsylvania residents that their Naturopathic Doctor's title, with the N.D. designation, has the competencies of graduate naturopathic medical education and training in order to practice in PA.

***Share your personal story here about the value of naturopathic medicine ***As an allopathic physican I am totally disillusioned with what has occurred during the covid pandemic. My daughter will be staring naturopathic school in the fall and I am thrilled that she does not have to go through the indoctrination and politization of health care that allopathic programs have capitulated to. She will be trained to treat the whole individual not to choose the correct pharmaceutical optiopn.

I recommend total accreditation for naturopaths to do all that allopathic practitioners do. I believe it will only help the publ.\\

David S. Lilienthal, MD

Sincerely,

David Lilienthal
