Chairman McDonnell and Members of the Board,  
I support the proposed Safe Drinking Water PFAS MCL Rule. Adoption of the MCL will improve health protections for citizens currently exposed to PFAS while balancing the cost of additional treatment this will require. In years to come, I expect that the Board will continue to monitor scientific evidence that may require revisiting the MCL in this Rule and potentially expanding protection by setting MCLs for other PFAS compounds besides PFOA and PFOS.

Appreciatively,  
Scott H. Ensign
