I am a resident of Foulkways, 1120 Meetinghouse Rd., Gwynedd PA 19436

My husband had suffered from Atheisner's. He was a resident in Assisted Living and Skilled Care here from 2018 until 2029 when he passed away, I remain a resident of this facility in independent living. I have been here since 2006. I have Multiple Sclerosis. The cure that I and my husband have received at this facility has been nothing short of exemplary.

I know that every time that there is an inspection of our facility, Foulkeways passes with flying colors.

Followsys maning cure is self funded by residents. We do not accept any federal Medicare money and request that we not be subjected to these onesons PA regulations. I understand we would have to go out and hire a special RN simply to fill out the additional paperwork. We cannot affeed or easily find that person. It would add another \$17% or so in annual salary, monies which are much better used to continue providing great pattern care.
