 E. Norriton, PA 19401 US

Comments entered:

Does this new MSC now supersede the guidance on Utilizing Published Data in Performing a Background Demonstration and Equivalent Site Evaluation for Naturally Occurring Vanadium? Differences between the MSC and the Clean Fill limit create confusion when it comes to site development activities which are creating unnecessary costs for soil handling and disposal during site development.

No attachments were included as part of this comment.

Please contact me if you have any questions.

Sincerely,
Kate Cole
