To whom it may concern:

I support of the inclusion of naturopathic doctors in the proposed regulation 16A-4958. This is ever so important for Pennsylvania, especially as the newly established website, <https://www.naturopathypa.org>, lists that their members are 'doctors of naturopathy' and every single one of these charlatans have no medical training whatsoever and would not be licensable in any state whatsoever. We need protection from such untrained people acting as doctors!

Please include naturopathic doctors in the proposed regulation 16A-4958: it is past due for protecting PA citizens seeking proper medical advice!

Sincerely,

Darren Longden
